 - 3/Pkg (#23669) 3+1 Carbon Filter, models after E6110295

Muffler not included (Star # 95199)

Color of the LED Needed Maintenance

Blinking Green

Suggestion: Clean the filters and empty the dirt receptacle. Then when you are finished, reset the electronic timing board, by simply holding the switch for 5 seconds.

Blinking Amber

Suggestion: Change the filters and have the motors checked. After, reset the electronic timing board.

Blinking Red

Suggestion: We strongly recommend that you change the filters and have an authorized service center inspect the motors. Again, reset the electronic timing board.

Blinking Green/Amber/Red

Suggestion: Bring your unit to an authorized service center. Your unit may need some maintenance.

Please Note : All repairs or maintenance of electronic and mechanical parts of your unit, must be done by an authorized service center.

Very Important: Unit must be installed within 3 Ft of a 20 Amp 250V straight blade electrical outlet.
